Summary

Results-driven Software Engineer with a Bachelor of Science in Computer Science from the University of California, Berkeley. Proven ability to design, develop, and deploy high-quality software applications, as demonstrated during my tenure at Google, where I contributed to the improvement of search engine efficiency. Expertise includes Java, Python, and SQL, along with agile development methodologies. Successfully completed a capstone project resulting in a 15% reduction in server latency. Certified in AWS Solutions Architect - Associate.
