Summary

Results-driven Software Engineer with a Bachelor of Science in Computer Science from the University of California, Berkeley. Proven ability to design, develop, and deploy high-quality software applications, as demonstrated during my tenure at Google where I contributed to the improvement of search algorithm efficiency. Proficient in Java, Python, and SQL, leveraging these skills in projects such as the development of a scalable data pipeline that reduced processing time 15%. Holding a Google Cloud Professional Data Engineer certification.
